

# ABC Fruits

# O U R C O M P A N Y

ABC Fruits is a leading manufacturer and exporter of fruit pulps/concentrates, especially mango and guava. Our company started with a small scale canning unit in 1997. An aseptic line was installed with double effect evaporator in 2003 with a capacity of producing 4 tons per hour. Subsequently in 2007, capacity was increased by an additional 6 tons per hour. A new aseptic unit was installed in 2010 with state of the art machinery imported from Italy. Today we are one of the largest fruit processors and exporters in India.

We aim to be one of the leading food solution organizations that cater to a rapidly growing global processed foods market. Our core competencies in agri-science, food technology and quality management enable us to successfully manage the entire business supply chain. Our products are committed to actively support and gradually empower rural Indian farmers through a holistic partnership approach. We provide agri-assistance and aim to build a strong social and economic support system for them. Working for our farmers remains a major focus area for us. We consider their sustainable development a critical index of our business success. We have been supplying our quality products to our international customers in Europe, U.K, U.S.A, Middle East and Far East for the past 15 years with consistent quality and reliability.

## **OUR FRUIT PULPS / CONCENTRATES**

Mango fruit pulps and concentrate are processed from fruits which are selected and graded under strict quality control by our technical expertise to ensure that our customers get only the best. Our fruits pulps are hot packed in cans or aseptically packed in bags kept in MS drums.

## **OUR QUALITY**

We adhere to internationally bench marked quality and regulatory standards prescribed for the food processing industry. Aware of country-specific regulations, we ensure our products and facilities are appropriately certified. We have in place the capability and capacity to meet our customers' precise requirements and individual specifications. We are audited and certified by ISO, HACCP, US:FDA, HALAL, SGF and KOSHER.

## **ASEPTIC PACKING**

Our aseptic processing of fruit pulps are done on imported machinery. The principle of Good Manufacturing Practices that we adhere to is evident in this process. The entire plant is designed and equipped as per International Standards. The plant is located in the heart of India's fruit growing belt.
